- **Zoom in:** Click the Zoom-in button, and then click on the area you want to magnify. Each click will increase the zoom level.
- **Zoom out:** Click the Zoom-out button, and then click on the image to zoom out. Each click will decrease the zoom level.

GV-NVR/DVR Exporting video

1. From the viewlog screen, click the backup icon on the right panel.
**The backup screen will appear**

2. Select the media that you would like to export to. Select "Using Hard Disk"
if you're exporting to a local drive or usb flash drive. Use "Using CD/DVD"
**if you're exporting to a cd or dvd.**

NOTE: If "Using Hard Disk" click the tab on the right to select a destination to save the file to.
3. Name the file

4. Add time frame. The "select backup time" screen will appear. Input start date & time. Input End date & time. Select cameras > click OK

4. This brings you back to the backup screen. You will notice that your files were added to the "add time frame" box. Make sure "include player" is checked
